Dear Mr. Burningham:

The undersigned has been appointed by the Division of Oil, Gas & Mining as the Assessment Officer for assessing penalties under R647-7.

Enclosed is the proposed civil penalty assessment for the above referenced cessation order. The cessation order was issued by Division Inspector, Doug Jensen, on August 17, 2005. Rule R647-7-103 et. seq. has been utilized to formulate the proposed penalty for the violation as follows:

By these rules, any written information which was submitted by you or your agent within fifteen (15) days of receipt of this Cessation Order has been considered in determining the facts surrounding the violation and the amount of penalty. If the violation has not been abated at the time of the proposed assessment, the assignment of good faith points cannot be made. If you feel that you are eligible for good faith, you should supply relevant information to the assessment officer within 15 days of the violation abatement date so that it can be factored into the final assessment.

ASSESSMENT OFFICER Daron R. Haddock

A. Are there previous violations, which are not pending or vacated, which fall within three (3) years of today's date?

POINTS
(1pt for NOV 5pts for CO)

TOTAL HISTORY POINTS 0

NOTE: For assignment of points in Parts II and III, the following apply:

1. Based on facts supplied by the inspector, the Assessment Officer will determine within each category where the violation falls.
2. Beginning at the mid-point of the category, the Assessment Officer will adjust the points up or down, utilizing the inspector's and operator's statements as guiding documents.

Is this an EVENT (A) or Administrative (B) violation? Event
(assign points according to A or B)

A. EVENT VIOLATION (Max 45 pts.)

1. What is the event which the violated standard was designed to prevent?
Conducting Activities without appropriate approvals.
2. What is the probability of the occurrence of the event which a violated standard was designed to prevent?

PROBABILITY

None

RANGE

ASSIGN PROBABILITY OF OCCURRENCE POINTS 20**PROVIDE AN EXPLANATION OF POINTS:**

******* *An Operator is required to obtain a lease or right-of-entry prior to conducting mining operations. Approximately 5 acres has been disturbed at this location without having the appropriate approval. While the Operator has filed a small mine notice of intent he cannot conduct mining operations without having the right of entry. The Operator has created a five-acre disturbance, which includes a small pit, a stockpile/crusher-screening area and a small waste storage area. Disturbance has actually occurred.*

3. What is the extent of actual or potential damage?

RANGE 0-25

In assigning points, consider the duration and extent of said damage or impact, in terms of area and impact on the public or environment.

ASSIGN DAMAGE POINTS 8**PROVIDE AN EXPLANATION OF POINTS:**

******* *The inspector stated that the operator has disturbed approximately 5 acres of land that had not been approved for disturbance. The damage was the creation of a 5 acre mining disturbance within an area that the operator did not have a lease. The pit at this time is not deep and there is sufficient material at the site that can be used to reclaim the pit area. Growth material was saved prior to the excavation of the pit that can be used to facilitate the revegetation effort. Further discussion with the inspector revealed that the damage is probably temporary. While much of the soil and vegetation have been disturbed, the site could still be reclaimed. While the damage is extensive over the 5 acres, it probably does not leave the site. Damage is assessed in the lower 1/3 of the range.*

B. **ADMINISTRATIVE VIOLATIONS** (Max 25pts)

1. Is this a POTENTIAL or ACTUAL hindrance to enforcement? _____
RANGE 0-25

Assign points based on the extent to which enforcement is actually or potentially hindered by the violation.

ASSIGN HINDRANCE POINTS _____**PROVIDE AN EXPLANATION OF POINTS:**

TOTAL SERIOUSNESS POINTS (A or B) 28

III. DEGREE OF FAULT (Max 30 pts.) (R647-7-103.2.13)

A. Was this an inadvertent violation which was unavoidable by the exercise of reasonable care? IF SO--NO NEGLIGENCE; or, was this a failure of a permittee to prevent the occurrence of a violation due to indifference lack of diligence, or lack of reasonable care, the failure to abate any violation due to the same or was economic gain realized by the permittee? IF SO--GREATER DEGREE OF FAULT THAN NEGLIGENCE.

No Negligence	0
Negligence	1-15
Greater Degree of Fault	16-30

STATE DEGREE OF NEGLIGENCE Negligence

ASSIGN NEGLIGENCE POINTS 8

PROVIDE AN EXPLANATION OF POINTS:

******* *The inspector indicated that the violation was the result of the Operator not taking reasonable care in securing right of entry to the property. They had been in contact with the Landowner (SITLA) but were confused about the area that they had applied for. This indicates indifference to the rules or lack of reasonable care. A prudent operator would understand the need to keep within the approved boundaries and obtain the right of entry prior to disturbing an area. The Operator was negligent in this regard, thus the assignment of points in the middle part of the negligence range.*

IV. GOOD FAITH (Max 20 pts.) (R467-7-103.2.14)

(Either A or B) (Does not apply to violations requiring no abatement measures)

A. Did the operator have onsite, the resources necessary to achieve compliance of the violated standard within the permit area?

IF SO--EASY ABATEMENT

Easy Abatement Situation

- Immediate Compliance -11 to -20*
(Immediately following the issuance of the NOV)
- Rapid Compliance -1 to -10
(Permittee used diligence to abate the violation)
- Normal Compliance 0
(Operator complied within the abatement period required)
(Operator complied with condition and/or terms of approved Mining and Reclamation Plan)

*Assign in upper of lower half of range depending on abatement occurring the 1st or 2nd half of abatement period.

B. Did the permittee not have the resources at hand to achieve compliance, or does the situation require the submission of plans prior to physical activity to achieve compliance?

IF SO--DIFFICULT ABATEMENT

Difficult Abatement Situation

- Rapid Compliance -11 to -20*

(Permittee used diligence to abate the violation)

- Normal Compliance -1 to -10*

(Operator complied within the abatement period required)

- Extended Compliance 0

(Permittee took minimal actions for abatement to stay within the limits of the NOV or the violated standard of the plan submitted for abatement was incomplete)

(Permittee complied with conditions and/or terms of approved Mining and Reclamation Plan)

EASY OR DIFFICULT ABATEMENT? Difficult

ASSIGN GOOD FAITH POINTS _____

PROVIDE AN EXPLANATION OF POINTS:

******* *The Operator did immediately cease mining but is still in the process of acquiring the lease from SITLA. The abatement has not yet been completed, so good faith points cannot be awarded at this time. This category will be looked at again after the abatement has been completed. Points will be awarded depending on how quickly the abatement is met.*
